PROFILE

I am a fullstack developer with over 4 years of experience. I have worked on large-scale projects for the insurance industry, landing pages, and financial projects, providing valuable solutions for both clients and collaborators. Additionally, I have experience in customer service, which allows me to better understand user needs and offer effective technical support.

WORK EXPERIENCE

SENIOR FULLSTACK DEVELOPER **2021-NOW**
Grupo ASYS

Development of public web applications using Angular, advanced CSS, Bootstrap, and HTML, leading the creation of a generic claims system in Python Flask with REST services, enabling the agile integration of insurance products and efficient claims management. Responsible for continuous maintenance and support, ensuring system stability.

TECHNICAL SOFTWARE SUPPORT **2019-2021**
HCL Technologies

Providing specialized technical support for Xerox printer software, including the management of network protocols such as SMTP, SFTP, drivers, routing, and print servers. I have experience in customer service that involves direct communication with users via phone calls in English, guiding clients step by step and, when necessary, remotely accessing their computers to make configurations and resolve technical issues, ensuring their printing systems operate smoothly.
